

stabilyne BOLTZERO! XFLEX

Please scan for more information  
[www.sunshineblp.com](http://www.sunshineblp.com)

Established in Singapore in 1991, BL Packaging Pte Ltd began as a plastic bag manufacturer—hence the “packaging” in our name.

Over the years, we evolved into a metal tube manufacturer in China and further expanded into furniture supply, serving both home consumers and commercial enterprises.

## Innovation drives us forward.

Beyond our core business, we have established a design innovation centre at the heart of our 3,200 SQM product showroom, ensuring creativity remains at the forefront of everything we do.

This space houses BLIP—**Bold Lasting Innovative Products**—our prototype workshop dedicated not just to design but to the development of patented solutions such as Stabilyne and Boltzero.

These innovations provide our customers with truly unique and original offerings.

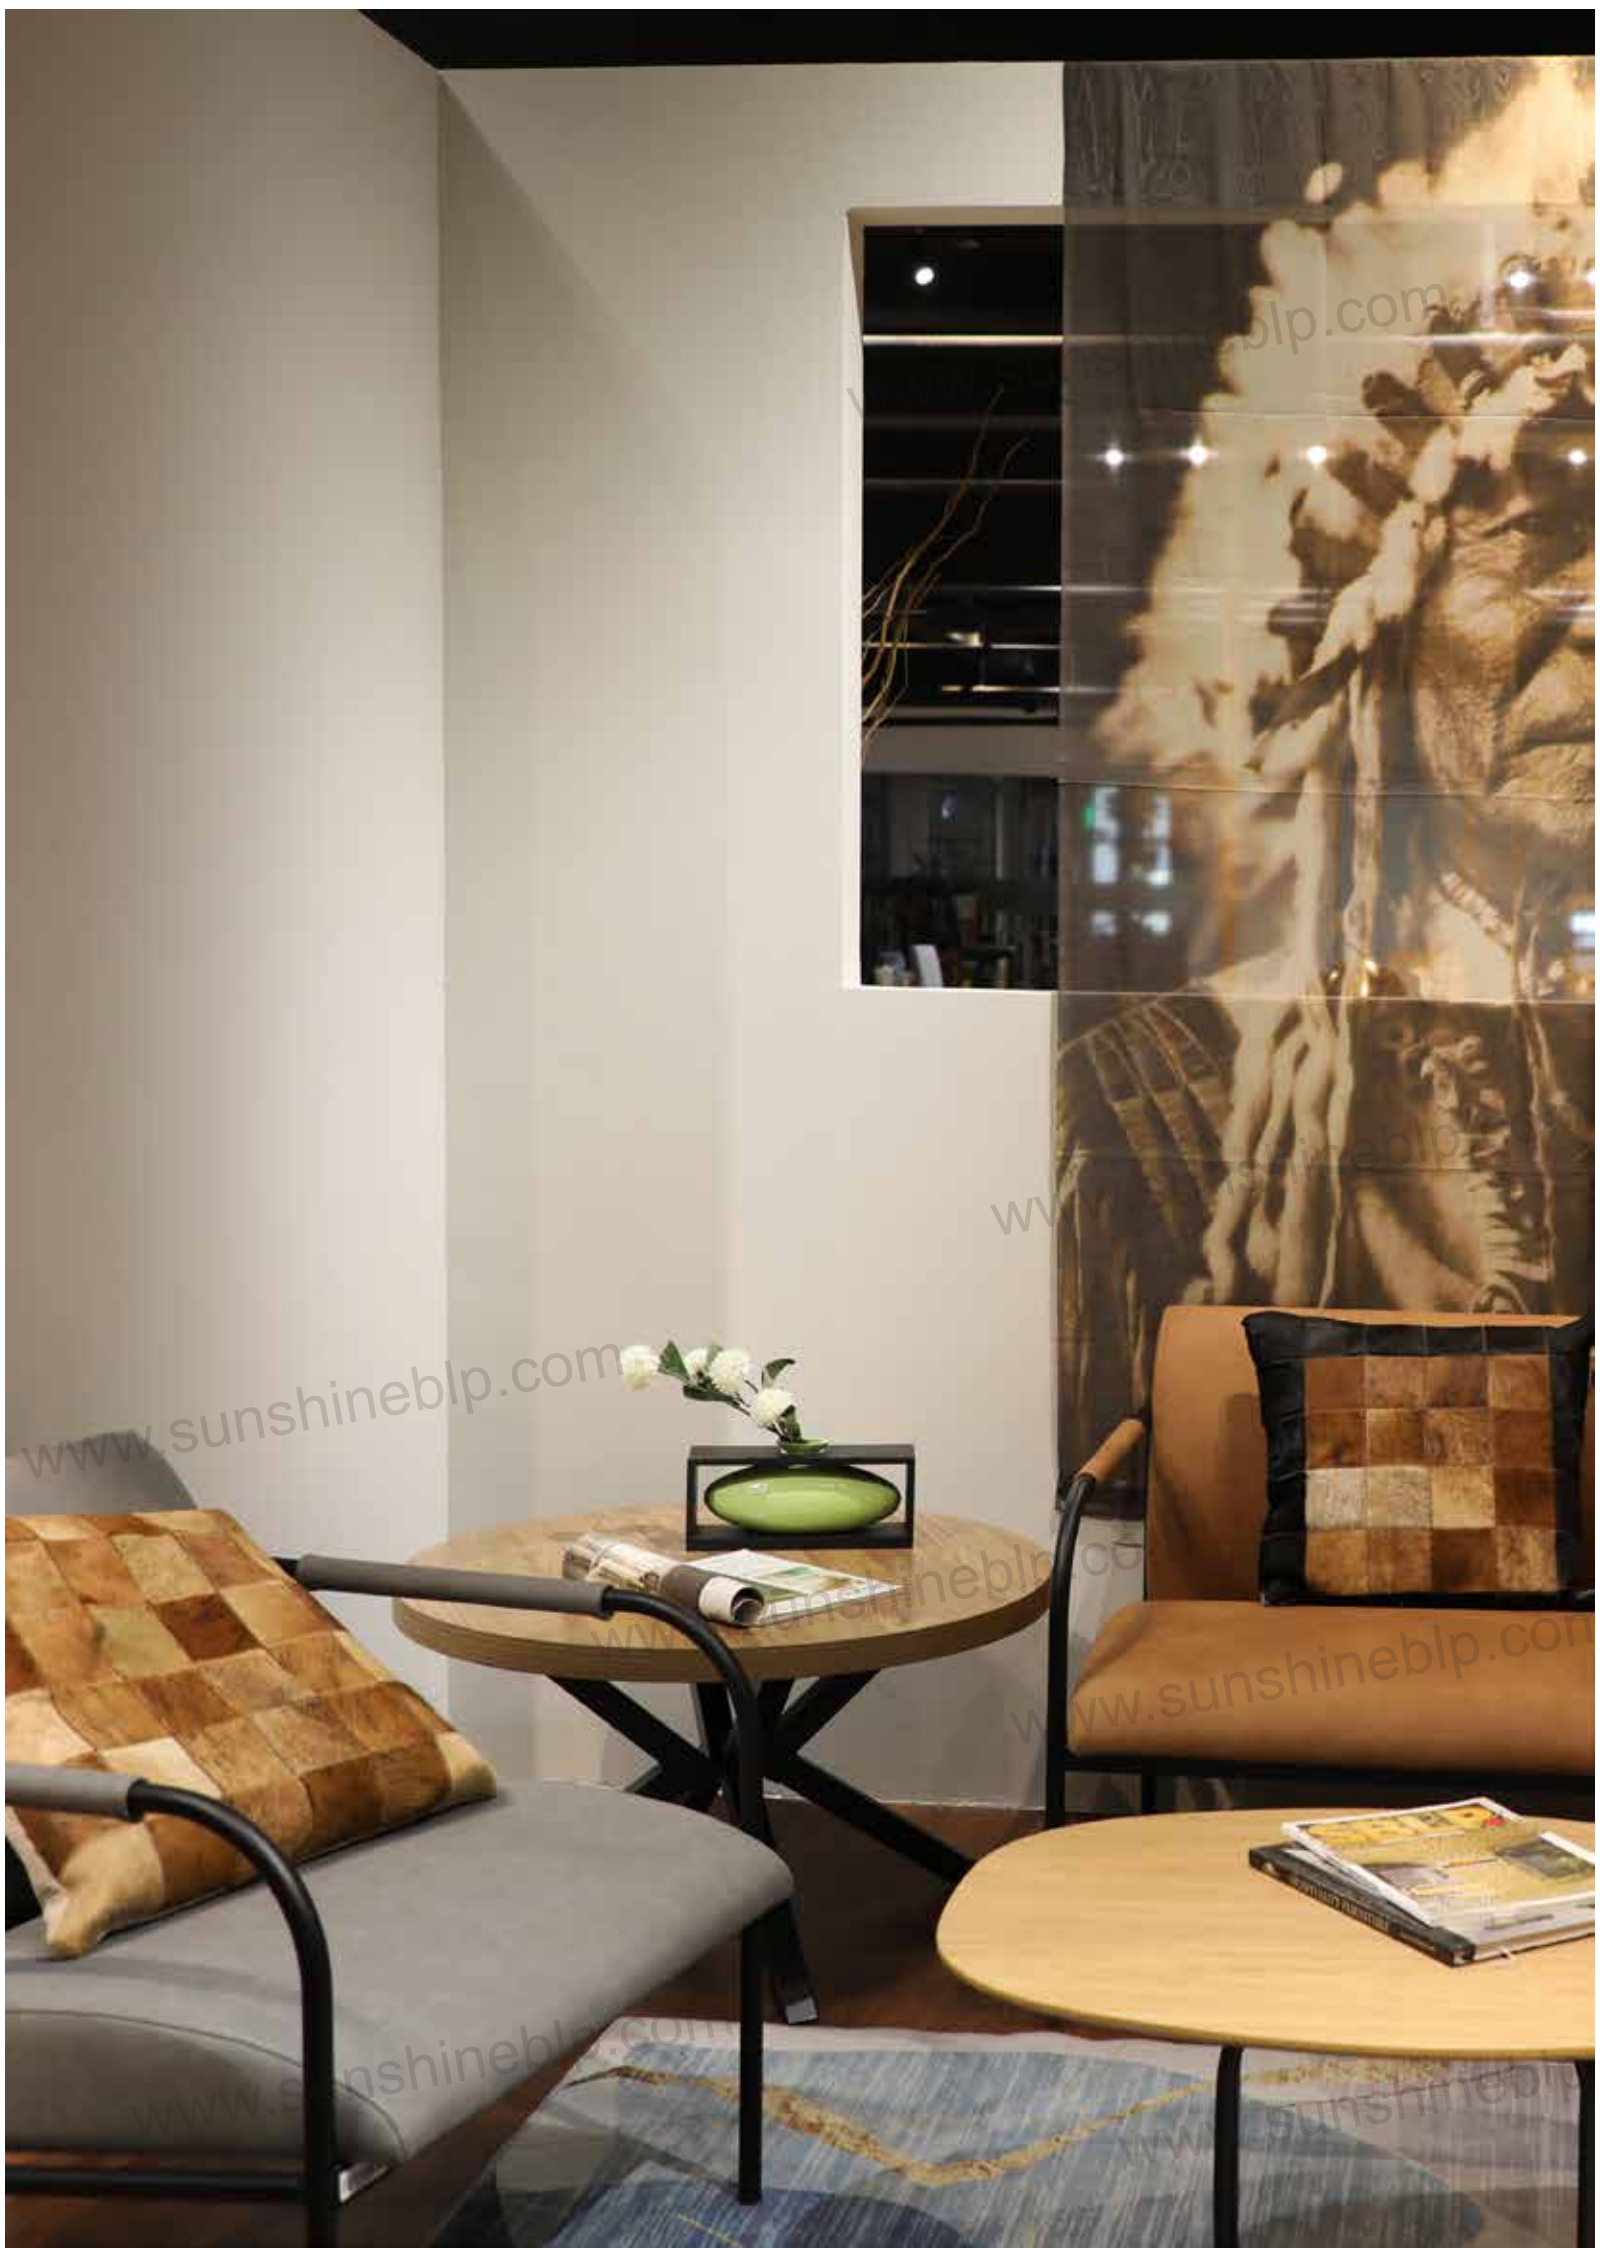

### Our motto

**—Creative, Commercial & Competitive—**  
is more than a statement; it’s a promise. With our largest team dedicated to quality assurance and control, we don’t simply claim excellence—we guarantee it. When you work with BLP, “peace of mind”, it’s a certainty.

Integrity and experience—partner us with confidence.

# Stabilyne:

**Engineered for Stability, Anywhere in the World**

**From Asia to Europe, and Africa to the Americas, uneven floors are a universal challenge. Our patented Stabilyne® technology features a self-levelling seat base that keeps all four legs grounded, whether it's on carpet, floorboards, tiles, or even cobblestones.**

**But stability is just the beginning. The Stabilyne® series is designed for global adaptability — with customisable upholstery (cotton-poly blends, microfiber, leather, PU, PVC) and foam options (PU, latex, moulded memory foam) to meet diverse market needs. We support key certifications including EN12520, UK FR, EUTR, and abrasion testing like Martindale and Wyzenbeek.**

**Formaldehyde-safe, flat-packed, lightweight, and rated up to 200kgs, Stabilyne® is patented in the USA, UK, EU, China and Malaysia.**

**With unmatched everyday usability and design flexibility, not to mention being effortlessly suited for retail and digital campaigns.**

**Fabric Composition: Microfibre**

**Dimensions: W460 x D650 x H1050 mm**

**Measuring 460 mm wide, 650 mm deep, and 1050 mm high, this chair is upholstered in easy-clean microfiber that resists spills and stains. The contoured high-density moulded foam seat offers a balanced blend of softness and support, maintaining its shape and comfort over time. Designed for long-lasting structure, the foam resists sagging, flattening, and deformation, while the durable material stands up well to everyday wear and tear — making it both a practical and comfortable seating choice.**

Utility Bunk Bed  
W2100 x D1325 x H2500 mm

Study Loft Bed  
W4800 x D1100 x H2175 mm

Welcome to BLIP, our brand-new state of the art prototyping and sample-making facility.

**This is where ideas begin to take shape, quite literally. In this space, we bridge the gap between design intent and real-world production, building functional samples that allow for hands-on testing, refinement, and decision-making.**

**BLIP is designed to give you a closer look at:**

- The materials and joinery techniques we use in early-stage prototyping
- How we interpret drawings and 3D models into physical samples
- The processes behind upholstery, finishing, and custom detailing
- Works-in-progress you're free to inspect, sit on, and provide feedback for

**This area is dynamic. Samples here are always evolving, and your feedback plays a direct role in shaping the final product. We invite both new and long-time partners to explore, experiment, and begin developing new product lines with us. Whether you're starting from scratch or building on a proven concept, this is the space where ideas take form, together.**

**We look forward to developing your future products.**
